## DETAILED ACTION

### ***Allowable Subject Matter***

1. Claims 7-16 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter.

Prior art of record (Vogel et al 6,983,169) teaches detecting if phone is in holster to enable or disable settings of the phone but is silent with respect to using magnet to detect presence of phone in holster and places phone into an idle state and if the incoming call is a data message, then delaying notification of the received data message until the phone is able to decrypt and decompress the data message so as to notify the user of the received data message and if the incoming call is a voice signal, then determining whether the voice call originated from a user selected group of phone numbers and notifying the user if the call is from group member as recited in independent claims 7 and 16 (see paper dated 3/9/06, page 7, section A for support for Examiners reasons for allowance).

Furthermore, (Vogel et al 6,983,169) teaches detecting if phone is in holster to enable or disable settings of the phone but is silent with respect to using magnet to detect presence of phone in holster and places phone into an idle state and determining whether the phone is configured to automatically answer voice calls upon removal from the holster and if the mobile device is not configured to automatically answer voice calls upon removal from holster, then displaying caller information and prompting the user to
